

Warwick Region Comprehensive Plan Update

**Community Planning Meeting #5 Built & Natural Environment -
Raw Survey Data**

August 10, 2023

Elizabeth Furnace

AGRICULTURAL RESOURCES

How would you like to see agricultural resources protected and enhanced in the Warwick Region in the next five years? Place your sticky notes here

Consideration of
UGB (Urban Growth
Boundary)

Expanding TDR
Program

Consider expanding
TDR's to
residential
development
(Manheim Twp as example)

- Minimize Commercial
Uses and growth in
large farmland tracts
- Protect farms

Assist farmers
in the
preservation
process.

Carefully consider
changes to UGB's

Regional TDR
program

Industrial Ag
Projects
How To Deal
With THEM
Search "Gotham Greens"

Farms Zoned
Rural Not Ag
ALONG West
Newport Rd

AGRICULTURAL RESOURCES

How would you like to see agricultural resources protected and enhanced in the Warwick Region in the next five years? Place your sticky notes here

Safe +
Reduced
Spraying
less toxins

encourage/
educate
younger
generation

- Continue
Partnerships
w/ LFT and
Ag Preserve
Board to Preserve
AND Steward Farms.

Farm Owner
outreach

reward organic
encourage less
pesticides

FLOODING
ISSUES

Use of
glyphosate
causing health
issues

- Continue to work
w/ farmers to
develop cooperation
plans for their
ag operations

DON'T STOP!
It's important
to the ENTIRE
REGION

Assist w/ implementing
conservation practices
on farms

CLIMATE MITIGATION

In which ways would you like to see the Warwick Region be proactive to protect against the impacts of climate change in the next five years? Place your sticky notes here

Consider public education "hours" or events to explain the importance of mitigation

encourage clean / alter-native energy

address Lititz Run / enhance w/ trail + clean up

Flood mitigation efforts, storm water system enhancements

Enhance Floodplains with remediation

Flooding ISSUES

SUSTAINABILITY OF GREEN INFRASTRUCTURE (WANTING FOR LONG TERM MAINT.)

Increase tracking of climate change

↑ Carbon =
↑ Plant Growth

- Proactive on restoration projects w/ priority projects, floodplain and riparian areas

REFORESTATION - Projects - Speedwell CTY PARK De PERRIS Woods CONSERVANCY

HISTORIC RESOURCES

How would you like to see historic resources protected and enhanced in the Warwick Region in the next five years? Place your sticky notes here

programs to encourage/reward protection & enhancement efforts

continue the MAIN STREET ETHIC

encourage adaptive reuse

PREVENT "DEMOLITION BY NEGLECT" BY STRENGTHENING ZONING IN ENTIRE REGION

more education on importance and benefits of protection of historic resources

TRANSPORTATION & INFRASTRUCTURE RESOURCES

How would you like to see transportation and infrastructure resources protected and enhanced in the Warwick Region in the next five years? Place your sticky notes here

GET TRUCKS
OFF MAIN ST.

BALANCE
PEDESTRIAN
CROSSING VS.
KEEPING TRAFFIC
MOVING

TRUCK traffic
continues to
negatively impact
the Boro -
Route 772

reduce
truck
traffic
through
down town
Lititz

Signal @ 501 +
LEXINGTON
RD
LEFT TURN SIGNAL
UPGRADE @ 6TH
+ Broad.

- Truck Routes
More
- Roundabouts

- Enhanced Traffic
Flow in Boro
Timing of Lights
would be first easy
step
- Water, Sewer, and
Road Improvements
need made

TRANSPORTATION & INFRASTRUCTURE RESOURCES

How would you like to see transportation and infrastructure resources protected and enhanced in the Warwick Region in the next five years? Place your sticky notes here

Plan for people
& lifestyle /
quality of life
- not so car-centric
- more walkability
↳ biking

I so appreciate the
trail system. It's an
important part of
an community.

FLOODING ISSUES

Support continued
maintenance of
aging sewer
infrastructure

||

Pedestrian traffic
in L. Boro
(Orange & front)

- Proactive
maintenance
and repairs
to existing
infrastructure

Mitigate traffic
in downtown
utility - western
bypass road?

Look at ways
for senior citizens
to have access
to low-cost
transportation options

There must be a balance
between farm preservation
and quarry. Especially if we
want growth & redevelopment
for the communities benefit
there should be a very, very
limited ability to swap or
trade properties or funding

Limestone is the most
critical resource for
Transportation & Infrastructure
It is vitally important that
it is local from a cost standpoint
quality limestone is limited
to where it is located. As well as
as a stream to pump water

WATER & NATURAL RESOURCES

How would you like to see water and natural resources protected and enhanced in the Warwick Region in the next five years? Place your sticky notes here

resident education & how easily they can help

WATER
CONSERVATION
AREAS

Flood Plain
Remediation and
more water infiltration

Adding Primary Cons.
areas to official Map

clean up
Lititz Run

Have you considered tours of water/sewer treatment areas? for the community?

MANAGEMENT
TEAM FOR
INVASIVE
PLANTS

Create pollinator pathways instead of impervious hardscaping.
Use native plants

FLOODING
ISSUES

- Grant Funding Sources
- Zoning to protect these Areas

Continue support of Watershed Alliance & other preservation organizations
