

**Class 1 & 2 Historic Structures
Warwick Region
Elizabeth Township
Lititz Borough
Warwick Township**

In 2008, Elizabeth Township, Lititz Borough & Warwick Township contracted with Rettew Associates to perform a historic review of all structures in the region 50 years and older. This map illustrates the structures with a Class 1 & 2 designation which indicates they might have historic significance. The survey only took into consideration the exterior of the buildings. The interior of the buildings could have been modified in a manner that reduces their historic significance.
