LANDBASE SOURCE

Planimetric and topographic data compiled photogrammetrically to National Map Accuracy Standards for 1" = 250' scale mapping using digital stereopairs from aerial photography dated March 1988, controlled analytically from ground points captured using first-order global positioning system equipment. Topographic contours and elevations were derived using a digital terrain model from feature elevations based on the North American Vertical Datum of 1988. Planimetric coordinates were based on the Pennsylvania State Plane Coordinate System South Zone and North American Datum 1983.
